About Me

Art Director, designer and photographer with experience across in-house, agency, and independent practice. Specializes in brand identity, visual design, and art direction for beauty, lifestyle, fashion, and consumer technology brands. Equally comfortable building a brand from the ground up and executing at scale within an established design system. Known for bringing strategic clarity and a precise, intuitive eye to every project.

Experience

Founder – Ola Ola Studio

May 2022 - Present / New York, NY

- Clients and projects include Caudalie (digital marketing), Vogue (editorial photography), and self-initiated brand work across beauty and lifestyle
- Art direct and produce photoshoots for brand campaigns, editorial, and digital content
- Design and develop websites using Webflow and Cargo, delivering fully realized brand experiences

Lead Product Designer – Raytheon Technologies

June 2018 – May 2022 / Brooklyn, NY / In-house

- Owned design direction across a 10+ person cross-functional team including product managers, developers, and data scientists
- Led UX/UI design across 3 internal digital products — mobile apps and data dashboards — from concept through launch
- Contributed and maintained a comprehensive design system used across 5 internal tools, each serving 20–100+ users
- Conducted user research and usability testing sessions to validate product decisions
- Presented work and advocated for design decisions directly to stakeholders and C-level executives

Senior Designer – Flightpath

Jan 2016 – May 2018 / New York, NY / Full-time

- Conceptualized and art directed digital projects across websites and social media content for a diverse client roster
- Clients included beauty and pharma brands: Avène, Klorane, ConvaTec, Goya, and Merck Animal Health
- Orchestrated cross-functional campaign executions, uniting copywriters, developers, and marketing teams to launch integrated product promotions that on average increased reach targets by 25%
- Established best practice processes that improved workflow and efficiency between design and development teams, significantly reducing back-and-forth

Visual Designer – H2 Wellness

Jan 2014 – Oct 2015 / Los Angeles, CA / Contract

- Designed custom UI for a white-label wellness platform, adapting visual systems to fit each client's brand identity and style guidelines
- Clients included Philips, Curves, and Atkins
- Contributed to information architecture and user interface design across onboarding flows
- Conducted user testing during onboarding phases to refine product experience
